

Case Study: Motilal Oswal Financial Services Limited - Atempo Live Navigator

Introduction

Motilal Oswal Financial Services Limited, a leading Indian financial services firm, is committed to providing innovative investment solutions and exceptional customer service. To support its growing operations and ensure data integrity, the company required a robust data backup and recovery solution.

The Challenge

Complex Infrastructure: Motilal Oswal's IT infrastructure is complex, encompassing various systems, applications, and data centres.

Regulatory Compliance: As a financial services firm, the company must adhere to strict regulatory requirements, including data security and retention standards.

Business Continuity: Ensuring uninterrupted operations is critical for Motilal Oswal to maintain customer trust and service levels.

The Solution

To address these challenges, Motilal Oswal selected Atempo Live Navigator, a comprehensive data backup and recovery solution. itSimple, a trusted technology partner, provided implementation, support, and ongoing maintenance for Atempo Live Navigator.

Key Benefits

Simplified Data Management: Atempo Live Navigator consolidated Motilal Oswal's data backup and recovery processes, streamlining operations and reducing complexity.

Enhanced Data Protection: The solution's advanced features, including deduplication and compression, optimized storage utilization and ensured data integrity.

Improved Business Continuity: Atempo Live Navigator enabled rapid data restoration in case of system failures or disasters, minimizing downtime and maintaining business continuity.

Regulatory Compliance: The solution helped Motilal Oswal meet regulatory requirements by ensuring data security, retention, and accessibility.

Expert Support: itSimple's team of experienced engineers provided timely and effective support, ensuring the optimal performance of Atempo Live Navigator.

Customer Testimonial

"itSimple has been providing brilliant support for Atempo Software on time, even in odd hours, for years. The product is simple yet evolving. Their team has always been helpful and supportive, ensuring our data backup and recovery needs are met efficiently."
